Casino UN0: Responsible Gaming Policy

Last Updated: September 28, 2025

Casino UN0 is committed to providing a safe and enjoyable gaming environment. While our current platform operates solely with demo chips and does not involve real money gambling, we recognize the importance of promoting responsible gaming practices and preparing for future real-money operations. This policy outlines our commitment to responsible gaming and the measures we will implement.

1. Our Commitment to Responsible Gaming

We are dedicated to:

- Preventing underage access to our Service.
- Ensuring that our Service is a source of entertainment, not financial distress.
- Providing tools and resources to help users manage their gaming behavior.
- Protecting user privacy and data security.
- Adhering to all applicable laws and regulations related to responsible gaming.

2. Demo-Only Environment

Important Note: The Casino UN0 platform currently operates exclusively with demo chips. This means:

- No real money can be wagered, won, or lost.
- There is no financial risk associated with playing our games.
- Demo chips have no real-world value and cannot be exchanged for cash or prizes.

This demo environment is designed for entertainment and practice purposes only. It is not intended to simulate or encourage real-money gambling.

3. Preventing Underage Access

Our Service is strictly for individuals who are 18 years of age or older (or the legal age of majority in their jurisdiction, whichever is greater). We will implement:

- **Age Verification:** Robust age verification processes during account creation.
- **Parental Controls:** Encourage parents and guardians to utilize parental control software to prevent underage access.

4. Future Real-Money Operations (Compliance Roadmap)

Should Casino UN0 transition to real-money gaming in the future, we are committed to implementing comprehensive responsible gaming measures, including:

- **Self-Exclusion Programs:** Allowing users to voluntarily exclude themselves from playing for specified periods.
- **Deposit Limits:** Tools for users to set daily, weekly, or monthly limits on their deposits.
- **Loss Limits:** Tools for users to set limits on their net losses over a specified period.
- **Session Limits:** Reminders and tools to help users manage the duration of their gaming sessions.
- **Reality Checks:** Periodic notifications during gameplay to remind users of the time spent playing.
- **Access to Account History:** Easy access for users to review their transaction history, game play, and account balance.
- **Problem Gambling Resources:** Providing clear and accessible information about organizations that offer support and counseling for problem gambling.

5. Recognizing Problem Gaming

While our current platform is demo-only, we encourage users to be aware of the signs of potential problem gaming. These may include:

- Spending more time or money on gaming than intended.
- Neglecting responsibilities due to gaming.
- Chasing losses or trying to win back money.
- Feeling irritable or anxious when unable to play.
- Lying about gaming habits.

If you or someone you know is struggling with gaming-related issues, we encourage you to seek help from professional organizations.

6. External Resources

For support and information regarding problem gambling, please consult the following resources:

- **National Council on Problem Gambling (NCPG):** https://www.ncpgambling.org/
- **Gamblers Anonymous:** https://www.gamblersanonymous.org/ga/
